EXPERIENCE

SHAPEMYSKILLS PVT.LTD. | TRAINING & INTERNSHIP - ANDROID
30June'22-11August'22 | Noida, Uttar Pradesh, India
- It was a six-week training program where I was trained in Android.
- Henceforth given a project of my own choice to be completed within the Deadline in android studio.
- During the 6-week training program at Shape My Skills Institute, I gained hands-on experience in Android app development.

PROJECTS

OBJECT DETECTION SYSTEM
- Android app using **TensorFlow Lite** API for object detection.
- I have used a pretrained **Mobile Net SSD** quantized model from here.
- **ImageNet dataset** which can detect about 90 classes including banana, scissors, laptop, remote, vase etc.
- **Java** is primary programming language used for back-end.

E-C OMMERCE
- Developed a fully functional E-Commerce website with a comprehensive set of features.
- The website provides a seamless online shopping experience for users and incorporates standard functionalities.
- Developed a product catalogue with category filters, enabling users to browse and search for products efficiently.
- Integrated a shopping cart and checkout system, allowing users to add products, and review their orders.

APPLE CLONE
- Developed a fully functional website with a comprehensive set of features.
- Designed & developed a Web site with Front-end to **HTML, CSS.**
- Apple clone using Html and CSS involves designing a webpage that emulates the look and feel of an Apple product page or website.

ACHIEVEMENTS

- **Hackerrank Certified** in Java (Basic).| **Certificate**
- **Hackerrank Certified** in SQL (Basic). | **Certificate**
- **Forage Certified** in JP Morang Chase & Co. Software Engineering Virtual Experience Program. | **Certificate**
